About the Ceduna area

Ceduna is rapidly developing a reputation as an ideal tourist destination with its abundant seafood, pristine beaches and wilderness, spectacular sunsets, whale watching and friendly people.

Ceduna is the major centre to a large and diverse business and industry sector on the Far West Coast of Eyre Peninsula.

It is the established focal point of a wide range of services. The Eyre Highway or National Highway One passes directly through Ceduna with approximately 236,000 tourists passing through the town annually (Nicholas Clarke & Associates, May 1996).

The District Council of Ceduna is the most western Local Government area of South Australia, being one of the most isolated and remote Councils of the State.

The town of Ceduna is located on the Far West Coast of South Australia, on the scenic shores of Murat Bay on the Great Australian Bight, approximately 800kms from Adelaide and 1900 road kms to Perth.

The word Ceduna is believed to have come from the Aboriginal word Cheedoona which means "a place to rest".

Ceduna has a population of 3,697 people as at the 2001 ABS Census.

A high proportion of this number of people live in Ceduna/ Thevenard with the towns of Koonibba, Smoky Bay, Denial Bay and Nunjikompita having smaller populations within the Council’s boundary.

Ceduna has been described as having one of the most complex multi-cultural communities in the country (Nicholas Clarke & Associates May 1996) with many nationalities prominent in the town and immediate region.

</table>
The mounting challenges of a growing community become all too evident in the budgetary process of Council. There are many initiatives that we would like to achieve but funding remains a restricting factor.

I have pleasure in presenting this Annual Report on behalf of Council for the 2003-2004 financial year.

A number of Council projects have carried over from 2002-2003 being:

**Ceduna Keys Marina Project**
Much behind-the-scenes progress has been made in the past 12 months with a Heads of Agreement being signed between Council and the Ceduna Marina Development Company, the preferred developer, following registrations of interest from several prospective developers. It is important to note that Council is no longer exposed to cost liability with the financial risk being born by the developer.

Extensive liaising with various government agencies and the State Government Major Projects Team has occurred in the preparation of an Environmental Impact Statement in order to satisfy the Major Projects Development Application Process. Planning is continuing and it is anticipated that physical work will begin in Mid 2005.

The Project’s plans have been re-drafted, which has been well received from the community in general. To date, the interest from prospective investors and land owners has been phenomenal, with approximately 150 residential blocks being sold off the plan with deposits paid. This should ensure that the construction of the development can be completed in a single stage.

**Loading/Unloading Facility**
Approaches to Council have been made by professional fisherman for an unloading/loading facility due to the lack of suitable facilities at the present Thevenard Wharf Site. This needs to be addressed urgently in order to protect existing and generate new jobs and economic benefit to this region.

Finance has been arranged for a feasibility study to be undertaken by the Eyre Regional Development Board and submissions have been prepared for presentation to Government Ministers by Great Australian Bight Trawlers, Pilchard Fishers, tuna fishers and other potential users.

**Ceduna CBD Upgrade**
The undergrounding of power lines in the designated CBD streets has now occurred, with the upgrading of the eastern side footpaths to occur prior to Christmas. Council will borrow funds to complete the task of rebuilding the remaining footpaths, kerbs, roadways and the median strip. The level of final borrowings will be subject to funding being sourced from Federal or State Government sources. The upgrade of the infrastructure and improved visual appearance of the CBD area will benefit both locals and tourists alike who access our town’s services. It is anticipated that this redevelopment will be completed by June 2005.

**Road Works**
Each year, various roads are identified that require some construction work to be undertaken, in the form of either reforming or resurfacing. In the 2004/2005 financial year Council has budgeted for all remaining unsealed roads in the Denial Bay township to be bituminised and some kerbed.

Work will continue on the bituminisation of a further 5.3 section of the Denial Bay road with completion due this financial year.
Skate Park
Work will commence on the proposed Skate Board Park in the first half of the 2004/2005 financial year. Selecting a suitable site has been the major hurdle, however after much consultation with our community’s youth, a site adjacent to the Ceduna Youth Centre on Bergmann Drive, Ceduna has been chosen as the preferred location.

Safe Swimming Enclosure
Funds continue to be raised by a dedicated group of volunteers for the swimming enclosure. An engineering study will be undertaken to determine suitable infrastructure to achieve the committee’s goals at the preferred location at Alexanders Beach.

Joint Council Agreement
A formal agreement of cooperation between the Wangka Wilurrara Regional Council and the District Council of Ceduna was signed during the year. The aim of the agreement is to formalise the existing working relationship between both Councils, and to enhance our respective capacities to work in unison.

This was a historic event and is the only such agreement signed anywhere in Australia.

Relocation of Smoky Bay Shacks
Council has worked diligently with the shackowners at Smoky Bay, the Aboriginal community representatives and the Minister for Environment & Heritage to arrive at a satisfactory outcome of freeholding the shacks in their existing site or transfer of the shacks to an alternative site. Unfortunately, a resolution wasn’t reached prior to the Minister’s deadline of 30/6/04 and the efforts have proven unsuccessful with shackowners now having only life tenure at their current site.

Oysterfest
This annual event continues to be successful to both locals and visitors alike. Felicity Brown is the coordinator appointed for the 2004 event and has initiated some valuable changes which will ensure that costs are contained whilst maintaining the level of entertainment that we have come to expect of this event.

Priority Projects
A detailed list of Priority Projects has been developed for both the Operational and Corporate Services Divisions which charts the orderly flow of projects and their expected timeframes. This aids Council staff in the completion of budgeted projects in a timely manner.

Council Rates
Rates for the 2004/2005 year have increased by 5% plus an additional $65 fixed charge for each rateable property to be utilised for the sole purpose of completing the Ceduna CBD Upgrade. It is envisaged that this additional $65 charge will be reduced in subsequent years, depending on State and Federal Grants and claw-back from the Ceduna Keys Marina Project land sales.

In General
The projects listed above could not have been undertaken without the hard working, dedicated and skilled Council staff. I speak for all Councillors in thanking them for the high quality of service and facilities that they provide to all ratepayers.

My personal thanks as well to all elected members who give so much time and energy to Council and who, regardless of the outcome and the vote, have the good of the community at heart.

Finally, my thanks to the volunteers within our community who give so much of their time – to those members of formal volunteer organisations and groups to those who do a daily litter collection on our beaches and streets – your contribution to our community is indeed commendable.
Chief Executive Officers Report

In the last few years we have witnessed a significant shift in the demands placed upon Councils. No longer is the focus on “roads, rates & rubbish”.

The District Council of Ceduna will be a progressive major regional centre providing: - extensive employment and economic development opportunities, outstanding community services, excellent physical infrastructure and harmony with our unique culture & pristine environment.

This Council vision for the future can only be undertaken through strong leadership and advocacy progressively advancing the economic, environmental and social development of the community. Strong leadership within Council is brought about by developing a culture that is positive, cohesive, decisive, supportive, progressive, open & approachable, accountable and innovative and energetic.

**Development**

The reporting period 2003/2004 saw a slight downturn in the number of Development Applications compared to the previous years with just 99 applications as opposed to 112 & 106 applications in the two previous periods respectively. Subsequently the overall value of development was down on the last reporting period by 18% to $2,882,188.00.

Although a downturn was predicted by various analysts towards the end of 2003 or beginning of 2004, a contributing factor in Ceduna may have been the announcement of the ‘Ceduna Keys’ marina as a ‘Major Project’, with expressions of interest called for the various allotments. It is therefore likely that people may be waiting to see the progress of this development prior to making any further commitment to existing property development.

The comparison chart below shows actual numbers of applications and their value: -

</table>

The Ceduna Council continued its reciprocal arrangement with the District Council of Le Hunte in providing a Development Control service and receiving a Health Officer service in return.

**Strategic Planning**

Council has a list of priority projects it wishes to commence and depending on other support from other levels of government etc it will hopefully complete many of these in the next 5 years and they are following on page 7.
Whilst the list above is ambitious, the reliance on other than Council funding will determine the speed as to which the projects are commenced and completed. Projects like the Ceduna Keys Project will in itself when underway contribute important funds to Councils coffers to enable it to undertake these priority projects. Employment and economic development opportunities must be taken as they come before us to ensure our district has a future for our youth and community services are maintained for all living and visiting our region.

**Building Control**

One of the Construction Supervisors, from the Works Department of council was promoted to Technical Officer, on the proviso that he undertake studies in the Building Surveying area. This will help council to fulfil its obligations under the Development Act and its inspection policy.

**Planning**

Council finally secured the agreement of the Department and Minister, on councils ‘Statement of Intent’ for the proposed General and Smoky Bay Plan Amendment Reports. These projects will continue over the next year. The agreement necessitated a compromise on councils part, which involved withdrawing its intention to look at the
‘Coastal Zones’ within its area, on the proviso that the Minister and Department provide resources and funding for a reassessment of the ‘Coastal Zones’ throughout the Eyre Peninsula, with the possibility of a Ministerial PAR being the result.

Council has deferred the PAR for the proposed Ceduna Keys Marina Project, until such time as the project receives Development Approval from the State Government.

Health
Mr Mike Thompson from the District Council of LeHunte, is continuing to provide food surveillance and food premises inspections, as part of councils reciprocal arrangement with the Le Hunte Council. A part of this service, is the maintenance of the Food Premises Data Base initiated by Department of Human Services.

During the reporting period 12 septic tank applications were approved under the Public & Environmental Health Act, all of which are connected to the Common Effluent Drainage System. A septic tank system is required to be installed by a licensed plumber who is responsible for notifying Council at prescribed stages so that inspections can be undertaken to ensure compliance with the approved plans and Waste Control Regulations.

Regulatory Control
Council has continued to give affect to its bylaws, with the control of its dry areas, with 9 expiations for alcohol offences issued.

Under the Dog and Cat Management Act 1995, Council registered 740 dogs in its area. There were 125 dogs impounded during the reporting period. Several complaints were received relating to dog attacks on stock and residents should be aware that expiation notices will be issued for unregistered dogs or dogs wandering at large. For the 2003/2004 period 24 expiation notices were issued for a variety of offences. All the figures for the period were up on the last reporting period.

Operations
Many challenges in 2003/2004 year really stretched resources in the Operations Section of Council with the undergrounding of power lines in the Ceduna Central Business District (CBD) and construction and sealing of; 5.3 kilometres of the Denial Bay Road, Collins Street, a section of Smith Road, Smoky Bay Aquaculture Park Roads as well as half of the remaining unsealed roads in the Denial Bay Township being the major projects for the year.

The effort that has been put into the selection of better rubble for the construction of roads continued and whilst the higher clay content rubble being used, can be slippery soon after construction, these roads provide tighter road surfaces and far better dry weather performance.

The following are the unsealed roads constructed in the 2003-04 year: Formation and surfacing of; 7.1 kilometres of Oorla Tank Road, 4.5 kilometres of Schwartz Hill Road, 1.3 kilometres of Dog Fence Road, 2.7 kilometres of Laura Bay Road, 7 kilometres of Standpipe Road, sections of Kalanbi Road, plus small sections of roads and road intersections.

The challenges are great and I urge all in our community to be a part of the challenge that lays ahead for Council and our community at large.

I take this opportunity to thank our valued volunteers for their unselfish personal commitment to our community’s well being over the many years. To Elected Members and staff I personally thank them for their commitment and determination to make our community one of the best to live, work and play in.

Tony Irvine
The District Council of Ceduna is made up of a Mayor and eight Elected Members elected by the community to represent the interests of everyone in the council area.

Through their daily activities living and working in the area and through their role of receiving representations from constituents, Councillors bring to the policy making and budgetary process a vast reservoir of knowledge and understanding of community aspirations.

Through the formal debating processes of the Council this knowledge and understanding coalesce into policies and priorities which are uniquely suited to the people of Ceduna. The Mayor and Councillors of the Ceduna Council were elected in May 2003 to represent your interests.

Members of the public may raise issues directly with their Councillors by contacting them as listed on the following page.

The roles and responsibilities of all committees are contained within Councils Policy Manual and are a requirement of the Local Government Act 1999. Members of the public can access these policies at the Council Administrative Centre, or purchase a copy for a fee.

Council reviews the structure, membership and relevance of all committees at least on an annual basis.

During the 2003/2004 financial year the structure of all committees was reviewed substantially with a number of minor amendments.

Additionally, the membership of most committees has been expanded to provide for non-council organisations and/or community members to have full voting rights on the relevant committee.

The inclusion of community members on Council committees is seen as a direct consultative process where members of these organisations can have direct input into the decision making process of the committees.

All committees then make recommendation to full Council for their decision on issues.

**Council Committees**
- Technical Services & Works Committee
- Technical Services & Works Skate-Park Subcommittee
- Administration & Finance Committee
- Davenport Creek Management Committee
- Ceduna & Districts Bushfire Prevention Committee
- Development Assessment Panel
- Marketing Ceduna Committee

Australian LGA Annual Conference & Annual General Meeting Delegates
Australian Airports Owners Association Annual Conference & Annual General Meeting Delegates
Ceduna Community Service Committee (Community)

A wealth of opportunity
Excellence in customer service

Customer Service

Council’s philosophy on customer service is “everyone in the District Council of Ceduna must serve the customer or support someone who does”.

This philosophy and other customer service values were adopted by Council in September 1998 with the aim to improve service to our customers by providing an excellence in customer service. There are now guidelines on how our customers should be treated, and outlines to the customer what can be expected from Council staff in their service.

Although it is human nature to dislike criticism, Council recognises that complaints give us the opportunity to put things right. To aid us in becoming more aware of problems that exist with Council operations we have developed a ‘PLEASE REVIEW’ form for our customers to complete. These can be obtained from the Council Office, online at www.ceduna.net or can be posted out on request.

Public Enquiries
This year has seen the implementation of a Customer Action Request System (CARS) that will assist both customers and Council Officers alike in improved management of enquiries from the public. The CARS system is designed to capture information from the public, and then provides requests to relevant officers to action the enquiry. There are reporting functions of this system that provide for a greater level of accountability from Council.

The implementation of this system is a continuation of our internal assessment and development of better management practices.

Written Reports to Council
All senior officers report to Council on a monthly basis on various matters in their area of responsibility. Approximately 126 reports were presented to Council by Officers in the past year. These reports generally have recommendations from the relevant officer to the Council, and Council then has the option of accepting these recommendations or taking a different course of action.

Correspondence Received
A total of 1679 (1744 in 2002/03, 1192 in 2001/02, 1277 in 2000/01, 1895 in 1999/00, 1369 in 1998/99, 2813 in 1997/98) items of correspondence were received by Council that required some form of action or response. All correspondence does not get presented to Council as Council provides direction for Council Officers to act under Council Policy. Approximately 160 items of correspondence were presented to Council for consideration with comments and recommendations provided to Council by Council Officers.

Funding Submissions
Council’s officers prepared a number of detailed submissions seeking funding for infrastructure improvements, responding to legislative changes, reporting to the other two tiers of government etc.

Council has a relatively small rate base, and as such the obtaining of grant funds is vitally important in developing infrastructure and services throughout the district.

Council registers

Council is required to maintain the following registers that are available for perusal to the general public:

- Register of Interest – Members of Council
- Register of Allowances & Benefits – Members of Council
- Register of Benefits – Council Staff
- Register of Public Roads
- Register of Community Land
- Register of By-Laws
- Register of Election Campaign Returns

**Community Land**

Council has completed the classification of community land but has not as yet adopted management plans for Council land that is classified as community land.

The management plans have been drafted and will be available for public consultation in November 2004, prior to adoption in December 2004.

**Codes of Conduct**

Council has adopted Codes of Conduct as detailed:

- Members Code of Conduct
- Staff Code of Conduct
Council last conducted a representation review during the 2000/2001 financial year with this review receiving certification from the State Electoral Office.

Notification of completion of the review was published in the Government Gazette on 22 November 2001 with the following results on the Council’s membership structure and boundaries:

♦ retention of the existing structure of no wards;
♦ retention of the existing elected member number of one Mayor and eight elected members;
♦ retention of the existing area of council with no boundary realignment, extension or reduction.

Provisions of the Local Government Act 1999 require Council to comprehensively review the composition of the Council at least once every six years. Accordingly Council will only be required to complete the next representation review by November 2007.

A copy of the review can be viewed at the Council Administration Centre, or may be purchased for a small fee. The outlined issues included Ceduna Community background, Communities of Interest including Physical & Topographical, Demographic Trends, Economic Factors, Recreational & Social, and Regional Issues, Participation in Decision Making, The Consultation Process and Representation Options.

Council currently operates on a no-wards basis with a representation of a Mayor and eight elected members. The number of electors for the area is currently 2,622 which gives a representation ratio of 1:291. This indicates that this Council’s electors are well represented with the highest representation quota being District Council of Orroroo/ Carrieton with 1:136 and the lowest, City of Tea Tree Gully with 1:5936.

Boundary Adjustments - Public Initiated Submissions

Under Section 28 of the Local Government Act 1999 ‘electors’ can initiate submissions for boundary adjustment.

Electors requiring detailed requirements of a Public Initiated Submission can contact Council to obtain further details of the Act.

Meeting of Council
In fulfilling the role of an effective Council which is responsive to the needs of the community and operates within the legal framework as prescribed by the Local Government Act, the District Council of Ceduna is fully committed to the principle of open government, whilst recognising that on some occasions it may be necessary in the broader community interest to restrict public access to discussion and/or documents.

Public access to Council and Council Committee Meetings is guaranteed and encouraged, except where the Council believes it is necessary in the broader community interest to exclude the public from the discussion of a particular matter.

A simple example would be a case where the Council is intending to bid at auction to acquire land and would not want others involved (such as the vendor) to have prior knowledge of what the Council was setting as an upper limit to bid at the auction, as to do so would prejudice the position of Council and disadvantage the community.

Further examples occur when information pertaining to the health, safety or financial position of a person is involved. The public is only excluded when considered absolutely necessary.

Council used the confidential-provisions pursuant to Sections 90 of the Local Government Act on Eleven (11) occasions from a total number of Agenda items of 266.

Of the total Agenda items 4.1% were discussed using the Confidentiality Provisions. This compares to 3.4% in 2002/03, 3.8% in 2001/02, 2.6% in 2000/01, 1.8% in 1999/00 and 4% in the 1998/99 financial years, which reaffirms our commitment to conducting Council business in an open and transparent manner.

The confidentiality provisions were used as such:

August 2003
*SE & DK Evans – Development Proposal for Smoky Bay
*Laura Cove Developments – Proposed future use of Bosanquet Bay Slipway
Dust Disease Tribunal – Codling V’s District Council of Ceduna

November 2003
Heads of Agreement – Ceduna Keys & Coastal Centre Project
Ceduna Keys & Coastal Centre Project
Ceduna Keys & Coastal Centre – Developer Negotiations
*Councillor Dispute

February 2004
*Sale of Vacant Council Land

May 2004
Chief Executive Officer’s Performance Appraisal

June 2004
*Ceduna Aerodrome Jet A1 Refuelling
*Sale of Vacant Council Land – Reserve Price

Of these eleven (11) confidential agenda items, five (5) have had the confidence order lifted and are now publicly available with regards to the above items. Those items marked with an asterisk * remain in confidence.
The Freedom of Information Act 1991 provides legislation and guidelines for access and provision of information to the public. If Council refuses access to a document we must issue a certificate stating why the document is a restricted document.

Most information and files held by the District Council of Ceduna are available for public viewing. There are a few exceptions, such as personal and personnel records and matters which are subject to litigation, but generally, information is readily available for viewing at no charge or a minimal reproduction charge.

In rare cases, retrieving the requested information involves considerable staff time. It is important to specify what you require as clearly as possible so our staff may quickly and efficiently help you. If extraordinary staff time is required to comply with an information request, charges may apply.

Most information is readily available without recourse to the Freedom of Information Act and we invite you to discuss your information needs with us.

For the year 1 July 2003 to 30 June 2004, this Council received no requests under provisions of the Freedom of Information Act to provide information.

Requests under the Freedom of Information Act 1991 for access to documents in the possession of Council should be accompanied by the relevant application fee and directed in writing to

Freedom of Information Officer  
District Council of Ceduna  
44 O’Loughlin Terrace  
CEDUNA SA 5690

Additional search fees may apply to requests where substantial time is involved to access the required documentation.

All general enquiries on Freedom of Information Act issues should be directed to Freedom of Information Officers, Trevor Smart or Sonia Oats.

**Information Available to the Public**

Council is regulated under several Acts, and/or is required to provide information under other Acts. A listing of Acts and Plans that Council operates under follows on page 26.
**Acts, Regulations & Plans**
- Local Government Act
- Freedom of Information Act
- Building Code of Australia
- Public & Environmental Health Act
- Real Property Act
- Food Act
- Housing Improvement Act

- Register of Employees' Salaries & Wages and Benefits
- Assessment Book
- Register of Public Streets and Roads
- Register of Fees and Charges levied by Council
- Supplementary Development Plans previously on exhibition
- Development Application Register
- Financial Statements
Equal Employment Opportunity

The District Council of Ceduna believes it has a social responsibility toward all members of its community and is required to create an employment environment which reflects the values and needs of the community.

Council has an ongoing Equal Employment Opportunity program, which includes the identification of any policies, procedures and practices that have implications for equal employment opportunity.

These are subject to ongoing review by the Equal Opportunity Committee to ensure that discriminating policies and structures are eliminated.

Indigenous Employment
As part of its equal employment initiatives policy, the District Council of Ceduna is committed to providing employment opportunities to the same percentage of Aboriginal people as in the Ceduna community (currently approximately 22%).

Through Council initiatives, and partnerships formed with other organisations, employment opportunities have been created through:

Youth Centre
1 full-time and 3 part-time staff operate the Ceduna Youth Centre. Council will shortly recommence the Bush Breakaway Program which will assist youth at risk. Other organisations involved include Children's Youth & Family Services, Ceduna Area School and SA Police.

Aboriginal Liaison Officer
Council employs an Aboriginal Liaison Officer with this position providing advice to Council on issues of aboriginal culture, promotion of indigenous employment and education, and provides a liaison between Council and indigenous communities and organisations.

Municipal Services
Council received funding to provide refuse collection services to the Koonibba Aboriginal Community.

Parks & Gardens
Council currently employs three full-time indigenous employees in our Parks & Gardens Team.

Contractors
From time to time Council contracts the services of indigenous persons to undertake projects including graffiti prevention (mural painting), by-law enforcement, and native title and heritage clearance issues.

With the above projects and employment opportunities Council currently has up to six indigenous persons employed on a full or part-time basis.

This sees Councils current employment of aboriginal persons to just above 15% of our total workforce. This does not take into account works carried out on a contractual basis by indigenous persons.

With Council progressing the Ceduna Keys Marina project, there will also be a commitment required from developers to provide local and indigenous employment opportunities during the construction phase of this project.

Council maintains a strong commitment to equal employment opportunity principles and the employment of target groups.
As a requirement of the Local Government Act 1999, Council is required to adopt a rating policy as part of the annual budget process. Even though this is a legislative requirement, it also assists Council in its approach to rating issues, and gives consistency to decision making relative to rating issues.

A summary of this policy is provided for your information, with a copy of the entire policy available for inspection by the public free of charge at the Council Office, or for purchase if you wish to obtain a copy.

Policy Objectives
The objectives of the rating policy are to assist Council to:
- outline clearly the rates policy position and approach
- provide information on the rates policy to ratepayers
- summarise the legal position relating to the setting and collection of rates
- comply with provisions of the Local Government Act 1999

Policy Content
The policy outlines covers the following issues:
- strategic focus
- method used to value land
- adoption of valuations
- business impact statement
- Council’s revenue raising powers
- differential general rates
- fixed charge
- separate rates
- service charges
- pensioner concessions
- Unemployed persons’ concessions
- payment of rates
- late payment of rates
- sale of land for non-payment of rates
- remission and postponement of rates
- rebate of rates
- early rate payment incentive
- disclaimer.

Review of Rating Model
During the 2004/2005 financial year Council will commence a review of the rating methods used to assess rates on rateable properties within the Council area.

This will include separate reviews on general rates, effluent charges, and other service rate and charges.

Under new provisions of the Local Government Act, substantial public consultation is required on any rating model reviews and the public will be provided with the opportunity to voice their opinion on any proposed change to Council’s rating model.

Rate Rebates
During the 2003/2004 financial year Council received no requests for rebates on rates.

As part of the Rating Policy, Council gives rebates on various properties with these properties predominately being recreation reserves leased to various organisations, Child Care facilities, Scout Groups, and other community based non-profit organisations.

For a complete listing of rate rebates awarded through the rating policy, members of the public can view the Rating Policy free of charge at the Council Office.
As at 30 June 2004 Council had the following policies as outlined below, and these are available for inspection by the public.

These policies assist the Elected Council and staff members through giving guidance in different issues which lends itself to a more consistent decision making system.

Through delegated authority, some policies give direction to, and empower the Council Administration to make decisions on issues as they arise. This allows for more efficient, timely and effective administrative processes.

All policies are subject to review and change as required.

Strategic Plan

Council has adopted a Strategic Plan for a three-year basis, with the Plan being reviewed by Council on an annual basis.

The following information outlines the Objectives and Strategies that were scheduled to be actioned during the 2003/2004 financial year.

The current Strategic Plan is Council’s second and forms an important part of managing Councils infrastructure, public services, communication and public relations.

Council gives strong consideration to the Strategic Plan in assessing the budget requirements each year, as the Strategic Plan was developed in consultation with members of the public and relevant organisations and agencies.

Whilst most strategies have been actioned to varying degrees, some strategies cannot be achieved due to financial constraints or if the strategy is jointly the responsibility of an external agency.

Members of the public are welcome to view our strategic plan in full, and can purchase the plan if they wish.
Goal 1 - Maintain, upgrade and develop physical infrastructure within Councils financial capabilities

1.01 Improve the quality and supply of water
- Continuation of assessment of storm water catchment and reuse options, with funding being sought to enable development of appropriate studies and plans.
- Representation on Eyre Peninsula Water Catchment Management Board maintained to keep abreast of water issues and funding opportunities.
- Eyre Peninsula Local Government Association developing business plan for improved water supply & quality in partnership with Council.
- Investigating opportunities for effluent reuse in Ceduna/Thevenard using Smoky Bay STEDS as a case study.

1.02 Develop and improve roads and footpaths
- Annual inspection undertaken by Council Committee to assess and prioritise future roadworks requirements.
- Local Government wide campaign for additional commonwealth funding. Federal Government will extend Roads to Recovery funding program.
- Continue to participate in Eyre Peninsula Transport Strategy.
- Continue to link road development plan into Council's financial and strategic plan.
- Categorising roads according to use and prioritise roads for construction and sealing
- Develop five year road development plan
- Updated road and footpath plans
- Developing a program for repair of footpaths
- Assessment and implementation of appropriate asset management plan

1.03 Provide appropriate public conveniences
- Continue to assess appropriate standards and type of facilities.
- Funding reserve established for future improvements

1.04 Improve the standard of streetscaping
- Under grounding of power undertaken in 2003/2004 jointly funded by Council and the State Government through the Public Lighting Environmental Committee.
- Stormwater works completed.
- Funding reserve established as part of 2004/2005 budget process to assist in Ceduna CBD upgrade process.
- New kerbing, shop access ramps constructed, and footpath paving to be carried out in early 2004/2005.

1.05 Improve the standard of communication services
- Eyre Regional Development Board has responsibility for upgrade of telecommunication facilities on Eyre Peninsula, with most upgrades completed.
- New Telstra Mobile Facility installed at Smoky Bay through partnership with Eyre Regional Development Board, Telstra, and Council.
- Broadband facilities to be available in late 2004.
1.06 Further develop the infrastructure and service level of the airport
- Council has provided funds for purchase of land adjacent Ceduna Airport to provide for future expansion requirements. Negotiations have commenced for land purchase to allow for expansion.
- Airport plan will continue to be assessed and updated.
- Future upgrades dependant on funding availability from external sources and identified future use.

1.07 Improve traffic management
- Council Officers have held preliminary meetings with businesses to ascertain future parking requirements.
- Provision of parking requirements on private developments established.

1.08 Develop regional transport strategies
- Actively participating in the Eyre Peninsula Transport Strategy
- Council participating in the Eyre Peninsula Grain Transport Summit to ensure future provision of appropriate transport facilities (ie rail, road, rail network, etc)

1.09 Maximise funds available for infrastructure development through the business planning process.
- Council continues to participate in a pilot project funded by the Local Government Association of SA - Step by Step Program - to assess content of infrastructure plan and initiate proactive asset management systems.
