What a Weekend!!

It was so good to see everyone enjoying themselves. How about the weather! We couldn't have asked for better.

There has been lots of talk about the ticketed entry. Council obtained a \$25,000 grant from the State Government for the event and ticketed entry was the only way that Council was able to gather the accurate information required for the Grant Reporting.

The volunteers on the entry gates were overwhelmed with the number of people entering the site after the parade on Saturday morning.

Council appreciates and thanks everyone for their patience.

A massive thank you to all the Sponsors, Vendors, Volunteers and everyone that attended. Without you we wouldn't have an Oysterfest.

Lot 5 Bergmann Drive

Lot 5 was used as a dewatering pond during the construction of the Thevenard Offloading Facility.

As part of the development approval Council is required to return the site to level ground, as far as is practical.

A contractor has been engaged to complete the mitigation works at Lot 5. They will commence in the coming weeks and works will be completed by the end of November.
